Dear Madam/Sir,

On behalf of the Organizing Committee, we are glad to invite you to present your research results at the International Conference “**EU Finance, REGulation and Business EUFIRE 2025**” organized at the Alexandru Ioan Cuza University of Iași (Romania), on May 8th - 9th 2026, focused on **Legal and Financial Perspectives on Risk and Resilience for Global Economy**.

Risk is present in all aspects of our life, and resilience is an important ability for better functionality of global market, developed in a self explanatory challenging time. Continuing the line of innovative regulation and pioneer rules with global impact, the EU strategy for building resilience and prompt response to various risks has the vocation to affect every pattern of the economic integration, changing the perspective on the topics previously addressed in the debates of the EUFIRE conferences series. While the EU regulation is efficient to European area and beyond, the scholars and researcher are invited to bring their most valuable input to investigate the present status of legal and financial tools to built efficient response to global economy threats, by implementing most productive analyses for productive debate and wide dissemination of their research results. The diverse opinion within academia, from the ones regarding the EU market as autonomous, to the wider view focused on the threats that are globally observed, the conference presents the opportunity for productive presentation and indepth investigation on this very fast developing topic.

The conference aims at offering the framework for debating the main challenges faced within EU and globally, emphasizing the legal and financial perspectives for the global economy, in particular, and for the business sector, in general. The event will reunite academics, researchers, and practitioners, both from Romania and abroad, and will provide the necessary background for the development of constructive analysis and productive dialogue. Participation at the sessions of the event will be open to academics, researchers, students, and practitioners with interests in EU law, finance, economics and public administration, to present the results of their scientific work and/or to attend/participate in the discussions. In response to the actual demand for fruitful academic events, the conference organizing committee proposes the on-site format, guaranteeing the opportunity for all the participants to bring up their research results for debate, both in plenary sessions and in panel discussions.

Contributors are encouraged to approach one of the main topics of the conference:

- The European single currency area: achievements and challenges
- EU Banking and Financial Stability
- EU Accounting: Challenges of the Digital Era
- The Risk and Resilience in Public Administration
- EU and global taxation: current challenges and resilient conduct
- The EU Business and Green Finance
- EU Macroeconomic Policies and Health Sector Strategies
- EU Information Systems and Technology for Business and Government
