Dear Madam/Sir,

On behalf of the Organizing Committee, we are glad to invite you to present your research results at the International Conference “**EU Finance, REgulation and Business EUFIRE 2024**” organized at the Alexandru Ioan Cuza University of Iași (Romania), on the 17th and 18th of May 2024, the year Europeans celebrate the 25th anniversary of the euro.

EURO is for a quarter of a century up to present one of the greatest success projects of the European Union, proving that unity, cohesion and economic benefits are supported by the single currency which is used now by 20 countries and more than 350 millions people.

Considering that Romania is a candidate country to the European Monetary Union, the conference aims at offering the framework for debating the main challenges faced within European Union and globally, emphasizing the regulatory perspective for the financial sector, in particular, and for the business sector, in general. The event will reunite academics, researchers, and practitioners, both from Romania and abroad, and will provide the necessary background for the development of constructive analysis and productive dialogue. Participation at the sessions of the event will be open to academics, researchers, students, and practitioners with interests in EU law, economics and public administration, to present the results of their scientific work and/or to attend/participate in the discussions.

In response to the actual demand for fruitful academic events, the conference organizing committee proposes the on-site format, guaranteeing the opportunity for all the participants to bring up their research results for debate, both in plenary sessions and in panel discussions. The conference offers the possibility to present the papers and to benefit from other specialists’ pertinent opinions on the results of the research. The dialogue between young researchers and reputable scholars is kindly encouraged.

Contributors are encouraged to approach one of the main topics of the conference (but not limited to):

- The European single currency: achievements and challenges under the current macroeconomic and geopolitical environment
- EU Accounting: Challenges of the Digital Era
- EU Financial and Administrative Regulation
- EU Taxation: theoretical and jurisprudential insights
- EU Business and Green Finance
- EU Macroeconomic Policies and Health Sector Strategies
- EU Information Systems and Technology for Business and Government

The conference will host the associated **Workshop on Strengthening the Jean Monnet professors’ cooperation**. The participants at this event - Jean Monnet (JM) professors, researchers and JM courses students/graduates - will analyze the perspective of developing EU studies and the efficiency of the cooperation within the network, in the view of the new JM programs.
